# **A letter from the MeUniverse team**

Hi. This is f(x) Global (@affxtionglobal) in twitter. We started in 2014 and now we are still here! We don't regret stanning four beautiful girls turned into breathtaking women. As you celebrate your 10th anniversary this year, anything that you will do in the future (solo or group), we are at your back. Don't feel pressure from the others have to say, we always got your back. Let's walk on the flowery path, we're meus and f(x) are together. f(x) forever? Yes! Congratulation, loves!

f(x) has always been an inspiration. It is thanks to that inspiration that helped our charity fanzine project, including over 15+ artists come to life. All of our artists were able to pour out their love for f(x) creatively and I think the outcome was beautiful. Our team would like to thank all other participating fan unions for bringing this all together. Happy 10 years of f(x)! We will walk alongside f(x) forever! - f(x) Fanzine

I was at home on a scorching hot afternoon. It was summer, and YouTube recommended a video called "Hot Summer." Everything to do with the mood but I didn't imagine that I could meet a unique group, a group that has amazing talent, and shares a love that surpasses any physical or cultural barrier. Your music and friendship have helped me through many dark moments in my life. And I can only thank you for that! Thank you! - Stay United f(x)

To my dear children, f(x), I love you with all my might. You've been my strength, my everything, for these past years. It's been a privilege knowing and loving you. Happy 10th anniversary! - functionlove

**3 YEARS AGO, I FOUND THE LOVELY F(X) LADIES.** The only group I get emotional for sometimes. Victoria, you're really like a mom to all around you. You are not just a beautiful woman, but very strong and intelligent. Your kindness melts my heart every day. Amber, you're the reason I became interested in f(x) and the first idol I became obsessed with. I remember your encouraging words, making me try harder in school. You're so outspoken and let nothing get in the way of being you. Park Sunyoung. You are so talented, so nice, so energetic and the person that makes me smile everyday. I hope you know you have so many people who truly know your worth and support you unconditionally. Everyday I make sure to recommend your songs to anyone who'll listen to me. Soojung, I've had my ups and downs with you, but now I know for sure you are so loveable and sweet. Don't listen to those who call you mean names and say you are cold. I know that you always smile at MeUs and try your best everyday. I will always support my strong, beautiful ladies.

Pure love, f(x).

My name is **Sam, I'm from Canada**. I first got into f(x) in 2013, when I discovered RPPP and ended up listening to all of their prior releases and just being overcome by this group with an original sound and so much energy in all their releases. Throughout the past 6 years, f(x) has been so important to me as I came to adulthood and saw the members grow alongside me—although I miss them always, I'm so grateful for what they've been able to put out largely by their own efforts. To me, f(x) is family, and they are strength in perseverance; from Amber, Victoria and Krystal all leaving their home countries at young ages, to all the members' solo activities (including my bias Luna's beautiful self-produced and written Even So, which I have to listen to every day). Thank you f(x) for all you've done for MeU, and I hope to one day be able to see you again as four on the same stage. <3

Happy 10th anniversary f(x)! I hope you guys will always be healthy, happy and stay together for a long time! I'm proud to be MeU and really love all of f(x) songs and will always support f(x)! 항상 고맙고, 건강하세요 그리고 오래오래 행복하세요! 사랑해요! ♡ **from: Felicia Rose-line, Indonesia**

Our life has become more beautiful because you guys are part of it♥□♥□♥□ Happy 10th debut anniversary... **From**

**Malaysia- Izumii Hazi**

**Wyn from Singapore:** Thank you for all these joy filled years. I am thankful for f(x) being one of the first few groups I looked into. Thank you to all you ladies doing your best for all MeUs! Cheers and all the best in your future endeavors! Wish you girls all the success in the world!♥

I wish you all the best. Stay strong! Keep the faith! Love, **Monique Paola from the Philippines.**

Happy anniversary!!!! I'm ashamed to admit that I only saw the light and became a meu in 2015. There's the fact that I didn't really care for anything K-pop until 2014... but it's still such a waste. I could have been around when you guys were promoting Red Light. Regardless of the 'could haves', it's now been more than 4 years since then and I'm now very proud to admit that I love f(x). I'm proud of your genre-defying discography, your visual evolution, your growth as individuals. In the wise words of Luna, keep on doin' doin' what you do! - **Mogwai (OneHallyu)**

Dear f(x), Thank you for making me back from KPOP during your 4Walls era and it makes me happy that I still love KPOP till now. I became a fan of yours during 4Walls era because I love that song and it was your first comeback without Sulli. I

keep listening to your songs all the time and I also keeping up what are the members doing. But I feel sad that they haven't release anything since their last Korean release witch was 'All Mine' in 2016 for SM Station and I keep seeing them individually after, Victoria's activities in China (variety, drama & music), Luna is doing musicals & her solo music and she also doing Luna's Alphabet, Amber's activities in the US and Krystal with her acting projects and sometimes doing magazine pictorials. It's been three years since their last activity as a group, but early this month, they are finally performing together at a SMTOWN concert in Japan. Even it's without Victoria I am so happy to see them together again and it's perfect timing for it because it's your 10th anniversary this year. Happy 10th Anniversary girls! I hope you guys comeback soon. **Love Abigail from the Philippines.**

hi! wow, this 10 years of f(x) was amazing, i can't believe how much you all did incredible things, amazing discography, one of the most loved girl groups, stylish trend and other million things. im so grateful for having f(x) in my life, you know, this years we being through wasn't easy, but, what truly matters it's how you all are happy, and the love that

meUs have for you, thanks to all!

**Vitor, from Brazil.**

Even though it has been awhile since your last promotion, but I always keep in faith and believe that f(x) will comeback in the future!!

Cannot simply describes how much I love you guys and would really want to meet you all in person! Happy Debut 10th Year Anniversaries and please always stay healthy and happy! Love you loads! 我愛你! 에프엑스 사랑한다!!!! 항상 응원할게요!!!!

Dear f(x), Happy 10th year anniversary to you guys!!! I really am grateful that I've got know you way back and I wanted to thank you for staying this long despite the challenges you've been through as a group and as an individual who went through a lot of negativities from the people who were insecure about you. Thank you so much for being an inspiration to a lot of people and for giving them happiness whenever they see you. Recently, through smtown's concert in tokyo, the three members performed for the first time after 3 years, we were so happy for it and for that I wanted to thank you once again, despite Victoria's absence you still moved our hearts by the fact that u are still there. Your bond encourage us that distance is not a hindrance to create a family within ourselves. For this year and for the next years to come, we will continue to support you individually and as a group with all of our heart. Thank u so much and we love you. 10 years with f(x)!! I can't believe that 10 years have passed already! I am very sorry that I could not watch your growing up and came to the fandom only a year ago. Your music means a lot to me and to all the fans around the world. Some quotes from your songs helped me fight self-hatred and depression, so I can't wait to hear something new from you and plunge into the world of music f(x) with my head. p.s. I want to congratulate you girls for being in the kpop game for 10 years! I thank you for your hard work and the effort that you put into your craft. I hope you're proud of yourselves. You are one of my favourite groups probably of all time. Your music has helped calm me down, as well as give me motivation. Again, I want to thank you for that. I pray that you are doing well and happy. Also, I pray that I can see you excel in the future too. Love you! ♥ **From your Caribbean fan, Denisha.**

So proud to call you my favourite K-pop group you changed the genre forever when you came in and changed my life. And while I and many MeU see you moving on with your lives and conquering different stages we thank you for times like Tokyo live. Thank you for all the memories and remember no matter what you do MeU is always behind you ♥

Oh my dear favorite girls groupe, I really hope that you will read this some day. Congratulations on your 10th anniversary! My name is Coralie, hard to pronounce right, and I am a MeU from Belgium. I really do like f(x) and each member, especially Krystal, not because she's the most beautiful woman in the world, but mostly because she's so talented and she has such pure heart and not a cold heart like some people believe. If you read this my dear Soojung, know that you are you and if you never change, I will always like you as the person you are. Don't smile to the camera, smile to the ones you love. Amber, Luna, Victoria, and even Sulli, I love you girls too, of course. I am a MeU, and even when I will get old, I will still be,

deep down, a MeU. Je vous aime,  
**Coralie.**

Dear f(x), you have helped me in so many ways. From a group that introduced me to kpop, to a real inspiration, I cannot thank you enough. You have accomplished so much in 10 years: flawless discography, worldwide recognition, legendary stage performances and much more! When I saw Amber, Luna and Krystal perform right before my eyes for Kcon Paris 2016, I've never been so happy and so proud to be a MeU... You truly are the most original, iconic and charming group out there! Even if you went through a lot, and have been inactive for nearly 4 years, MeUs will always be here

to support you, as a group as well as solo activities. F(x), I am proud of you! MeUs, I am proud of us!

Your songs are like an electric shock for me coz it's making me boom bang boom everytime i hear them. This hot summer makes me wanna drink milk and eat some icecream while im listening to this summer lover song which completes my day when i'm alone. Even if red light shines on me, i will always be so into you and keep listening to your songs with this la cha ta and rum pum pum pum vibes, writing all our story in this ending page of journey. Don't cry coz i'll always be there supporting you and waving such a beautiful goodbye to you hoping for someday i'll see you standing on the stage as 4. Me love U **Fachri, MeU Indonesia**

We walked on a path where the flowers bloomed, and withered. We had days when grasses were greener, and days when the land's deserted. We saw everything pretty, as well as things less pretty. In those 10 years, I learned how to see the beauty in withering flowers, and deserted lands, in plains and voids. And it was all because of you girls. :) You made my, and meu's, everyday's worth waking up to. Our love doesn't expire in 10 years, so whether you like it or not, we'll continue to love you 'til periwinkles turn to black. Hahaha. years. I have never been tired nor left you even if there were some circumstances that we can't control. I still wish for your comeback as an f(4) group, I badly wanted to see you in concerts. Please always stay healthy and know that we MeU will always love and support you girls till the end, forever. **Chrizty/Malaysia**

Happy 10th anniversary to my favourite function ever! I started to listen to K-Pop precisely around the time you girls made the last comeback, 4 Walls. f(x) caught my attention with all the amazing albums, full of memorable songs, but also

due to a greater sense of individuality that I didn't find as easily in other groups, thus becoming an immediate favourite from then on. Your songs (both the group ones and the members' solo acts/mix tapes) are on my daily playlists, and I don't plan to change that so soon, as they brighten up every day. Also, Amber, you're one of the artists I relate to the most, not only in the K-industry, but in the whole world (and I listen to a lot of artists worldwide :P). So thank you all for the amazing music and inspiration you bring into my life! Either together as f(x) or in your individual activities, I hope that you all are doing the things you want to be doing and having the time of your lives! Best wishes from **Portugal, Vânia**

Thank you for everything, F(x), and I wish you all a wonderful 10th anniversary! We love you! - **TW, USA**

I've found comfort and strength in f(x)'s music ever since I first found them in 2011 and they have been a big part in my journey to adulthood. The messages of self-love, independence, adventure and personal growth they always share have taught me to be bolder, braver and more confident. Their uniquely beautiful personalities, their breathtaking performances and passion for

their work motivate me every day to strive to achieve my own dreams and to find my own happiness. I just love f(x) so, so much, and I wish them all joy and success in the world. I want to thank them for being my quiet companions and role models when I wasn't at my best. I also want to thank them for bringing more positivity and love into my life. They're just such wonderful women and as a MeU, I'm incredibly happy that I get to see and be a part of their stories too.

Dear f(x), (if you're reading this >.<)  
It's unfortunate I haven't known you  
guys for very long, but through the  
music, intentions and hard work that  
I see from all the members of f(x), it  
truly feels like I've known you guys  
for longer. The term fan is some-  
thing I don't identify with frequently,  
to me the character of the artists  
contributes to how much I want to

listen to the artists. Victoria, Amber,  
Luna and Krystal, together you all  
carry similar qualities of compassion,  
freedom, acceptance, self-happiness  
and hard work but individually you  
depict these qualities differently,  
which is incredible because the  
versatility of each of you inspires me  
to go far and beyond with the  
things I want to do. Keep being who  
you are, keep doing what you love,  
no matter what, MeU will support  
you. **-Nightshade (LL) From Aus-
